## Group — Sales Revenue and Operating Profit

YTD Q3 RESULTS 2023 VS. 2024

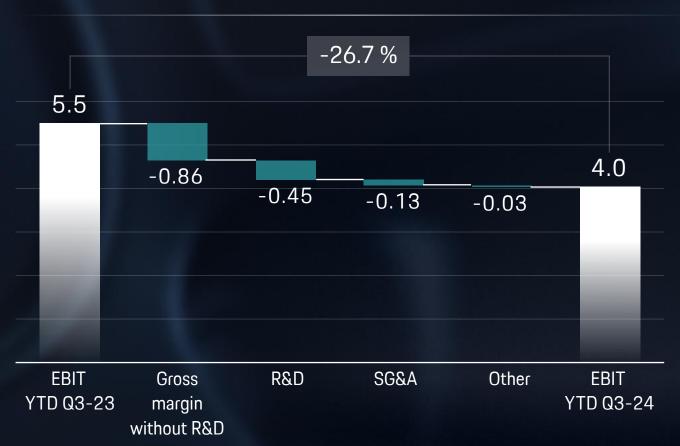

- Product changeovers, disciplined management of demand and supply in the Chinese market and relative lower parts availability from the supply chain characterized course of business
- Moving forward with the largest model offensive with elevated spending for product, innovation and Porsche brand
- Operating Profit in Financial Services at RoS of 7.4 %

## Group – Operating Profit Development

YTD Q3 RESULTS 2023 VS. 2024

# CONTRIBUTORS TO OPERATING PROFIT DEVELOPMENT, IN € BN

- Group Sales Revenues impacted by lower product availability and 'value over volume' strategy in China
- Positive impact from increased pricing, beneficial mix and FX
- Elevated material costs, R&D expenses, D&A and launch costs related to the introduction of the new model lines
- Slightly higher SG&A from investing in digitalization, brand and customer relation services

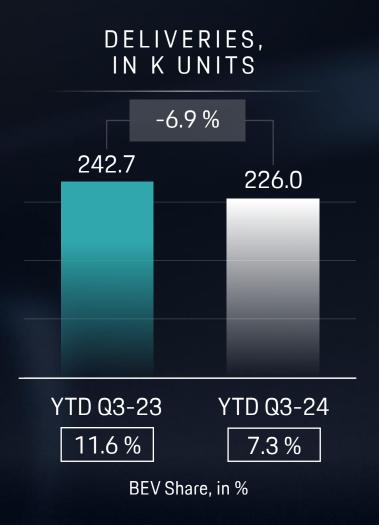

#### Automotive – Sales Revenue and Deliveries

YTD Q3 RESULTS 2023 VS. 2024

Automotive Sales Revenue per Delivery<sup>1</sup>, in € k

- Lower Automotive Sales Revenues due to changeovers of Panamera, Taycan and Macan
- Increased pricing, beneficial mix and higher degree of individualization
- Lower China volume due to 'value over volume strategy'
- Lower deliveries in Q3 also due to summer break in production and relatively lower parts availability from our supply chain
- BEV share on low level due to the roll-out of the Taycan and recently started deliveries of the new all-electric Macan

<sup>1</sup> The performance indicator "deliveries" reflects the number of vehicles handed over to end customers. This may take place via group companies or independent importers and dealers.

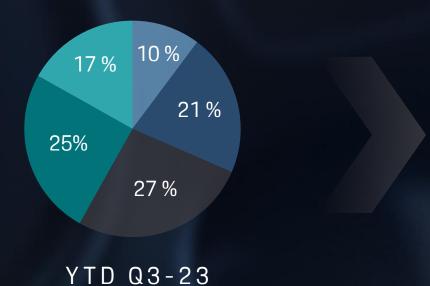

#### Automotive – Deliveries

YTD Q3 RESULTS 2023 VS. 2024

#### MODEL DISTRIBUTION, IN K UNITS

- Cayenne recorded the highest number of deliveries
- The iconic 911 sports car unchanged very popular
- New all-electric generation of the Macan handed over to customers
- Macan, Panamera, Taycan and 911 currently in run-out and ramp-up phase
- Customer demand remains at a robust level

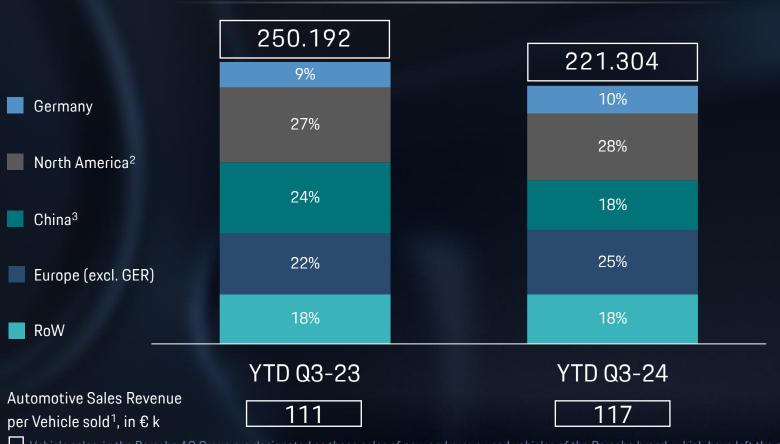

#### Automotive — Deep Dive on Vehicle Sales

YTD Q3 RESULTS 2023 VS. 2024

REGIONAL DISTRIBUTION, % OF VEHICLE SALES

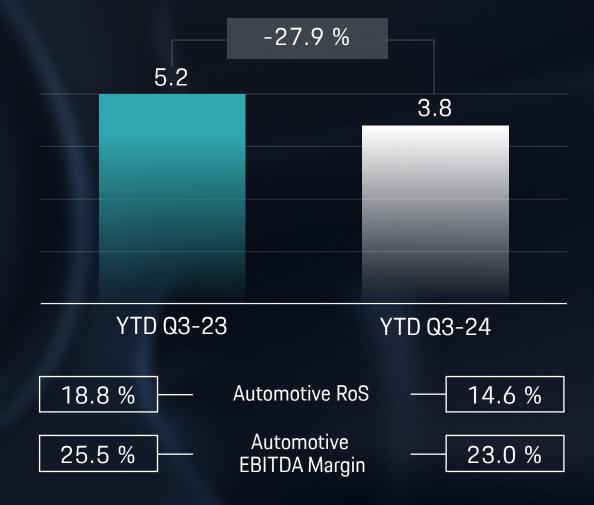

- Lower sales in Q3 also due to summer break in production and relatively lower parts availability from our supply chain
- Lower China volume due to focus on value-oriented sales and weak demand in the luxury segment
- Sales of 718 and 911 remain continuously robust
- Cayenne with increase being fully available in all sales regions
- More balanced global sales mix

Vehicle sales, in the Porsche AG Group are designated as those sales of new and group used vehicles of the Porsche brand, which have left the automotive segment for the first time, provided there is no legal repurchase obligation by a company in the automotive segment. ## Automotive — Operating Profit

YTD Q3 RESULTS 2023 VS. 2024, IN € BN

- Automotive Sales Revenues impacted by lower product availability and 'value over volume' strategy in China
- Positive impact from increased pricing and beneficial mix
- Elevated material costs, R&D expenses, D&A and launch costs related to the introduction of the new model lines
- Slightly higher SG&A from investing in digitalization, brand and customer relation services
- Seasonal lower product availability triggered unfavorable fixed cost coverage

#### Financial Services — Operating Profit

YTD Q3 RESULTS 2023 VS. 2024, IN € BN

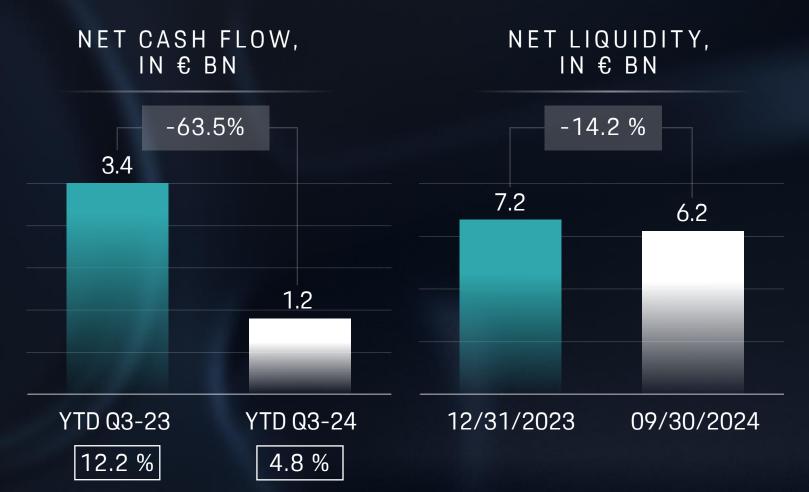

Penetration rate

- Lower penetration rate due to high interest rate environment, shifts in market mix, and new model launches
- Unchanged robust risk profile
- Less favorable valuation effects from interest rate, derivatives outside of hedge accounting

#### Automotive — Net Cash Flow and Liquidity

YTD Q3 RESULTS 2023 VS. 2024, IN € BN

- Cash flow from operating activities decreased due to lower Automotive Operating Profit
- Increase in Working Capital due to temporary higher inventories of new products including the Macan as well as challenges in the supply chain
- Mid-three-digit million EUR investments in strategic partnerships, technology and digitalization
- Reduction in net liquidity resulting from the dividend payment (€ 2.1bn)

The Porsche AG Group continues to face a highly challenging macroeconomic environment and various geopolitical tensions and conflicts. Uncertainties and financial burdens continue to arise in particular from the situation on the Chinese market, the numerous product launches and supply bottlenecks as well as the persistently high cost levels, particularly on the supplier side. As one of many challenges in the supply shortages caused by the flooding of a production facility of a major European aluminum supplier were largely offset. Other challenges in the supply chain remain, however, and must be considered accordingly. Taking into account the slower transition to e-mobility, the Porsche AG Group is simultaneously investing extensively in innovation, digitalization and sustainability for the development of future products and services as well as in the brand and customer satisfaction. Despite this challenging overall situation, the Porsche AG Group has confirmed the Outlook of the Porsche AG Group published in the half-year financial report 2024 subject to the conditions also described there — provided the overall situation does not deteriorate significantly. This applies in particular to macroeconomic risks, such as the introduction of additional import restrictions and tariffs.

Our long-term ambition
